ALBANY, N. Y., Aug. 18, 1884.

The following is Gov. Grover Cleve-

land's letter of acceptance in answer

to the committee who notified him of

his nomination at Chicago:

GENTLEMEN—I have received your

communication, dated July 28, 1884,

informing me of my nomination to the

office of President of the United States

by the National Democratic Con-
vention lately assembled at Chicago.

I accept the nomination with a

grateful appreciation of the supreme

honor conferred and a solemn sense of

the responsibility which, in its accept-

ance, I assume. I have carefully con-

sidered the platform adopted by the

convention and cordially approve the

same. So plain a statement of Dem-

ocratic faith and the principles upon

which that party appeals to the suffra-

ges of the people needs no supplement

or explanation. It should be remem-

bered that the office of President is

essentially executive in its nature.

The laws enacted by the Legislative

Branch of the Government the Chief

Executive is bound faithfully to en-

force. And when the wisdom of the

political party which selects one of its

members as a nominee for that office

has outlined its policy and declared its

principles, it seems to me that nothing

in the character of the office or the ne-

cessities of the case require more from

the candidate accepting such nomination

than the suggestion of certain well

known truths so absolutely vital to

the safety and peace of the nation

that they can not be too often recalled

or too seriously enjoined.

We proudly call ours a government,

by the people. It is not such when a

class is tolerated which arrogates to it-

self the management of public affairs,

seeking to control the people instead

of representing them. Parties are the

necessary outgrowth of our institutions,

but a government not by the people

when one party fastens its control up-

on the country, and perpetuates its

power by cajoling and betraying the

people instead of serving them. A

government is not by the people when

a result which should represent the

intelligent will of free and thinking

men is, or can be, determined by the

shameless corruption of their suffrages.

When an election to office shall be the

selection by the voters of one of their

number to assume for a time a public

trust instead of his dedication to the

profession of politics; when the holders

of the ballot, quickened by a sense of

duty, shall avenge truth betrayed and

pledges broken, and when the suffrage

shall be altogether free and uncor-

rupted, the full realization of a gov-
